A. D. STANLEY, A.M., Prof. Mathematics, Yale College, says: "The author has himself had much experience in the business of instruction, and has thus had occasion to know where there was room for improvement in the elementary treatises in common use. Without such experience no one can be qualified to prepare a class-book for schools." Intelligent and decisive recommendations have been given by hundreds of teachers in the Union, among whom are Superintendents of several States which have adopted an uniform series; the Educational Committee of the Illinois Legislature in 1850; Hon. S. B. RAYBOLD, Superintendent, New York city; HENRY KIMBLE, A.M., Ass't. Superintendent; Principals of all the New Haven Public Schools; Teachers of the New York Female Normal School; Principals of all the Albany Public Schools, and of all the Troy Public School; three hundred Town Superintendents in Wisconsin; the County Commissioners of the State of New York, etc., etc. The sale is over 100,000 a year, and rapidly increasing.
